Re: FCC ID: ZEH0414  
Applicant: PLUS Location Systems USA, LLC  
Correspondence Reference Number: 46280  
Form 731 Confirmation Number: EA470317

Mr. Thul,

Please find additional information in response to each of the discrepancies identified in your email on 8/27/2014.

**1) Form 731 must be updated to reflect Limited Single Modular approval. This has been completed internally and no further action is required.**

O.E.T has completed this.

**2) Per KDB Publication 996369 D01, detailed and comprehensive integration instructions, which must be provided to the integrator, must also be submitted as a separate exhibit. These instructions must allow for any associated party to clearly understand the conditions and limitations for authorized uses of the module.**

Please reference exhibit "2110 Single Limited Modular Transmitter Integration, Usage Limitations, and Grant Comments.pdf" for supporting documentation.

**3) Per KDB Publication 9963969 D01, the responsible party must demonstrate how it will retain control over the final installation of the device, such that compliance of the product is ensured by limiting the installation to a specific host or hosts. (This content should be more expansive than what is provided in the Transmitter Module Equipment Doc exhibit.)**

Please reference exhibit "2110 Single Limited Modular Transmitter Integration, Usage Limitations, and Grant Comments.pdf" for supporting documentation.

**4) Per KDB Publication 996369 D01, when the grant is issued, it shall state the device description modular type and, if applicable, the limiting conditions of the authorization. Please ensure that grant notes meet these criteria. Examples of pertinent grant notes can be found in KDB Draft Publication 821551 (link below).**

Please reference exhibit “2110 Single Limited Modular Transmitter Integration, Usage Limitations, and Grant Comments.pdf” for supporting documentation.

Sincerely,

Keven Trach

Vice President of Projects
