

SETUP PHOTOGRAPHS

This document contains 9 photographs

Photograph No.1
Setup for spurious emission measurements in the anechoic chamber below 30 MHz

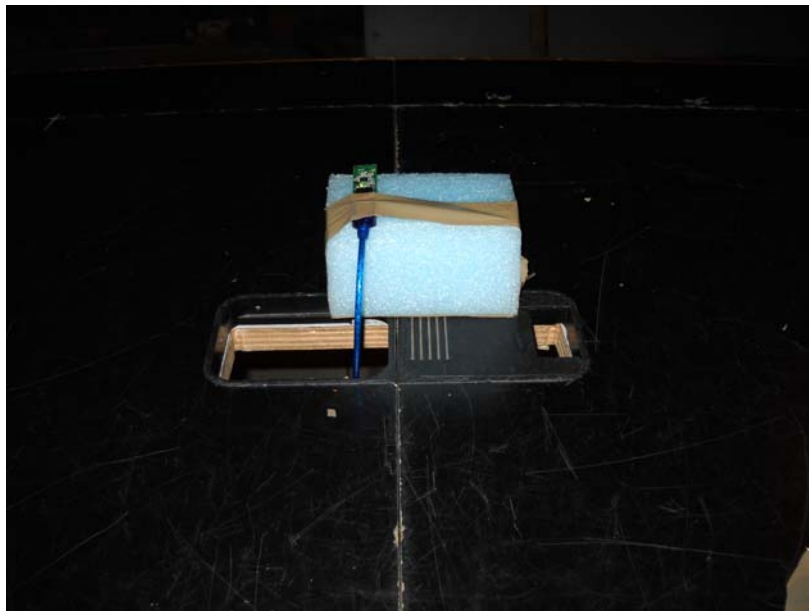

Photograph No.2
Setup for radiated emission measurements in the anechoic chamber from 30 to 1000 MHz

Photograph No.3
Setup for radiated emission measurements in the anechoic chamber above 1000 MHz

Photograph No.4
Setup for radiated emission measurements in the anechoic chamber, EUT close view

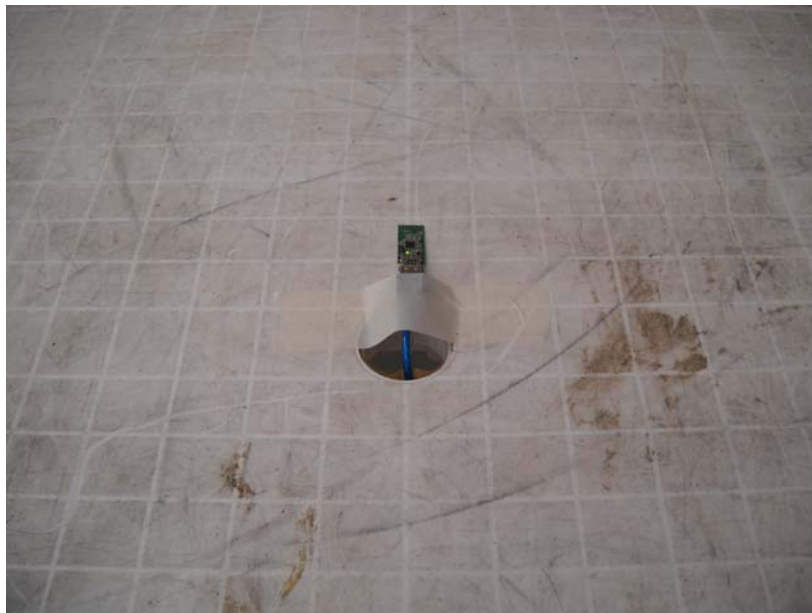

Photograph No.5
Setup for radiated emission measurements at the OATS from 1 to 18 GHz

Photograph No.6
Setup for radiated emission measurements at the OATS from 18 to 25 GHz

Photograph No.7
Setup for radiated emission measurements at the OATS, EUT close view

Photograph No.8
Setup for occupied bandwidth measurements

Photograph No.9
Setup for conducted emission measurements on the AC power lines
