

5.8GHz Wireless AV Sender

Our AV sender is an excellent Audio / Video transmitter at 5.8GHz. CCTV camera, Satellite receiver, Set-Top-Box, DVD,.... and any other AV device is available.

Transmission for any AV device

High gain antenna replaceable

Go through walls

Easy installation for CCTV system

Specification

Operation Frequency Range	5725~5875 MHz
Display Mode	Digital LED Channel Display
Video Signal	NTSC and PAL
Modulation	FM-FM
Audio / Video Connector	RCA connector
Memory Function	Final channel memory after power interruption
Antenna Type	SMA Female
Antenna Port Impedance	50 ohm
Operation Temperature	-10°C ~ +60°C

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- . Reorient or relocate the receiving antenna.
- . Increase the separation between the equipment and receiver.
- . Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- . Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. (Example - use only shielded interface cables when connecting to computer or peripheral devices).

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation
