- Unique, elegant, and trendy

How to get into on-line Mode:

Take off the battery cover, take out of the receiver, then put in the two batteries, fold up the cover, then put the receiver into the USB port of PC.

After insert the battery, Please press "Esc" + "Pause Break" simultaneously, low pressure indicator on the right top corner will be light in red, then straight away you put receiver into USB port of PC. The light goes off, there you can start to use.

Indicator light

Notice:

1. If after you press the two keys, after 10-15 seconds, you did not put in the receiver, then the checking code mode will expire, you need to restart again.
1. If the light goes off after 15 seconds, while press any other key, the pressure light will be shining, this means disconnected yet. The light will not be on by pressing any key once connected.
2. When the receiver and keyboard are in normal connection, but the low pressure light blinking, means the battery is low, need to change new pairs.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference.
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
