PAIRING WITH BLUETOOTH DEVICES

Bluetooth pairing is a professional terms on the use of Bluetooth products : form a wireless connection between bluetooth-enabled devices through a simple operation. For example, when use mobile phone with bluetooth speaker, to operate the mobile phone bluetooth to search bluetooth devices , select and then connect wirelessly by PIN.

BSH555 Bluetooth stereo headset pairing steps are as follows:

1. Ensure the headset is ON.(refer to the Turn On/Turn Off instructions)
2. Hold the multifunction button for about 7 seconds until the LED is on and red and blue LED flash alternately.
3. Refer to the User manual of your phone to turn on the your phone' bluetooth function and search for bluetooth speaker. Typically, setting steps involved to enter the settings, connection, or Bluetooth menu on the mobile phone , then select the found Bluetooth device option.

PAIRING WITH BLUETOOTH DEVICES

4. The phone will find the BSH555 Bluetooth Headset, and ask if you are ready with the pairing , press the OK or Confirm to pairing.

5. Enter password or PIN No.:0000, and press YES or Confirm.

(Remarks: After successful connection, the blue LED will flash 3 times and later flash once every 5 seconds. If the pairing has failed,LED is still flashing alternately,need re-pairing)

MAKING VOICE CALLS

If the voice recognition function is turned on , and use hands-free operation to connected to the speaker , then you can make calls by voice

1. Double click the multifunction button, you will hear a tone to indicate the voice function activated
2. Say the name of the person you wish to call.

(Remarks: Speaker's voice call function is determined by the cell phone)

BASIC OPERATION

Microphone mute: Long press the “-” button can switch to open and close the mute function, red and blue LED flash twice.

Notes:

1. When you listen to the music, can long press the "Volume + " button for about one second until a beep to switch the EQ to enjoy different music sound.
2. At the same time, you can hold the “previous” button for 1 second to switch the 3D to ON state, or hold the "Next" button for 1 second to switch the 3D to OFF state.
3. The headset has Aux in function, a direct external 3.5mm audio interface input .

BATTERY CHARGING AND LOW-VOLTAGE ALERT

When connected normally to charge, the red LED is on when in charging, the red LED will turn off when charging finished , the charge normally takes 2-3 hours.

When alert tone sounds once every 1 minute and the red LED flashes every 5 seconds indicate that the battery has run out, need to charge as soon as possible.

HELPFUL TIPS

If you are unable to connect the headset to the phone , please do the following:

1. Make sure that the headset is fully charged , switched on, paired with the phone and established a connection
2. Make sure the phone 's Bluetooth function is activated .
3. Check whether the distance between the headset and the phone exceed 10 meters , and whether there are obstructions such as walls or other electronic devices between two devices.
4. Bluetooth music devices or Bluetooth / Bluetooth stereo transmitter music device must support the Bluetooth A2DP.
5. Bluetooth music devices or Bluetooth / Bluetooth stereo transmitter music device must support Bluetooth AVRCP.
6. Some phones have not open the bluetooth connection function that the headset can take the initiative to switch between the music and calls, and this will result in the dysfunction of the headphones when switch between music and calls.
