

**Ref.: W60**  
**- MANUAL -**

**Please read this operation instruction carefully before use. Please keep this operation instruction with care for future use.**

## **SAFETY PRECAUTIONS**

When using this unit, basic Safety Precautions should always be followed to reduce the risk of fire, electric shock, or personal injury.

1. Read and understand all instructions.
2. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
3. Do not use this unit near water such as bathtub, shower or pool. Immersion of this unit in water could cause an electrical shock.
4. Place the unit securely on a stable surface. Serious damage and/or injury may result if the unit falls.
5. Do not cover slots and openings on the unit. They are provided for ventilation and protection against overheating.
6. Install the unit in a place where nobody can walk on.
7. Never push any objects through slots in this unit. This may result in the risk of fire or electric shock. Never spill any liquid on the unit.
8. To reduce the risk of electric shock, do not disassemble this unit. Take the unit to authorized service center or qualified technician when service or repair work is required. Opening or removing covers may expose you to dangerous voltages or other risks. Incorrect reassembly can cause electric shock when the unit is subsequently used.
9. Do not expose the unit to extreme temperatures such as areas near a hot radiator or stove or in a hot car.
10. Do not place lighted objects such as candles, cigarettes on the unit.
11. Do not use this unit to report a gas leak in the vicinity of the leak.

## **WARNING:**

To prevent the risk of fire or electrical shock, do not expose this unit to rain or any type of moisture.

## **MAIN FUNCTIONS**

- Works with all operators (subscription or prepaid card)
- Big characters displayed on a backlit screen for a good readability
- Large keys with readable figures
- "SOS" button at the back of the phone = as soon as you press the key "SOS", the telephone will alarm and call the 5 recorded numbers in sequence and send already set SOS messages

- SMS function
- Speaking: announces number when you press key
- TF card memory support max. **4GB**
- Phone book : 300 numbers
- FM radio/Blut tooth
- Audio format support : MP3
- Calendar, calculator and clock with alarm
- Multi-languages
- Autonomy: 150-200 hours (depend on network) standby / 3-4 hours talk
- Flashlight function

**WITH FULL POWER, THE PROLONGED LISTENING  
CAN DAMAGE THE EAR OF THE USER.**

The symbol opposite indicates that the electric and electronic components are the subject of a selective collection, it represents a dustbin on wheels barred of a cross. The electric and electronic products can contain substances having negative effects on the environment and health. Worn, they should not be thrown with domestic waste but to be imperatively recovered in the selective collections: dump, associations of social economy and interdependent. The selection of waste decreases the potential effects on the environment and human health due to the substances dangerous which can compose certain components electric and electronic.

Take an active part: to remove you not from the apparatuses with domestic waste!

## FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: W60(FCC ID:ZHN-W60) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the ear is 0.293W/kg and when properly worn on the body is 0.118W/kg. This device was tested for typical body-worn operations with the back of the handset kept 1.0cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.0cm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

**NOTE: THE GRANTEE IS NOT RESPONSIBLE FOR ANY CHANGES OR MODIFICATIONS NOT EXPRESSLY APPROVED BY THE PARTY RESPONSIBLE FOR COMPLIANCE. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The users manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. In cases where the manual is provided only in a form other than paper, such as on a computer disk or over the Internet, the information required by this section may be included in the manual in that alternative form, provided the user can reasonably be expected to have the capability to access information in that form.
