Warranty Policy

▶ 1 Year LIMITED WARRANTY CONDITIONS

The limited warranty is provided to the original owner only and is not transferable to any third party. Proof of purchase will be required for any limited warranty on Augen products. Augen 's warranty covers only those defects which arise as a result of normal use of the product, and do not apply to any product: (i) which has been repaired or altered unless done or approved by Augen, (ii) which has not been maintained in accordance with any operating or handling instructions provided by Augen, (iii) which has been altered or damaged by accident or natural disasters; (iv) which has been subjected to unusual physical or electrical stress, misuse, abuse, power shortage, or negligence or (v) which has been used other than in accordance with the product operating and handling instructions.

▶ LIMITED WARRANTY COVERAGE

Within a period of 1 year of the date of purchase, if Augen receives notice of defect in any Augen product which is covered by Augen 's warranty, Augen shall either repair or replace the defective product, at Augen's option. Augen shall have no obligation to repair or replace until the customer returns the defective product to Augen according to the Warranty Procedure in below.
For software products, Augen's limited warranty applies only to a failure to execute programming instructions. Augen does not warrant that the operation of any product will be interrupted or error free.
For the other regions that Augen representative doesn't present, please consult with your local Augen retailer or authorized dealer before purchasing.

Warranty Policy

▶ WARRANTY PROCEDURE

During the warranty period, Augen will replace or repair defective products returned to Augen or a retail shop you purchased. A product returned for warranty service must be shipped complete in its original packing material or equivalent including any cables or accessories that were originally provided. Augen accepts no liability for any loss or damage while in transit to Augen. Augen will use new or refurbished parts at its discretion, and will own all parts removed from repaired products. Please note that repair or replacement of an Augen product during warranty will not extend the original warranty term.

▶ LIMITATION OF WARRANTY

Neither Augen nor its third party suppliers make any other warranty or condition of any kind whether expressed or implied, with respect to the Augen products, and specifically disclaim the implied warranties or conditions of merchantability, satisfactory quality, and fitness for a particular purpose

▶ LIMITATION OF LIABILITY

Except for the limited obligations specifically set forth in this warranty statement, in no event shall Augen or its third party suppliers be liable for direct, indirect, special, incidental, or consequential damages, whether based on contract, tort, or any other legal theory and whether advised of the possibilities of such damages. If you have any question regarding warranty condition in your area, please call 1-877-AuGenOk

FCC Statement of Compliance

FCC regulations

Changes or modifications not expressly approved by the
party responsible for compliance could void the user's authority
to operate the equipment. This equipment has been tested and
found to comply with the limits for a Class B digital device,
pursuant to Part 15 of the FCC Rules. These limits are designed to
provide reasonable protection against harmful interference in
a residential installation. This equipment generates uses and can
radiate radio frequency energy and, if not installed and used
in accordance with the instructions, may cause harmful
interference to radio communications. However, there is
no guarantee that interference will not occur in a particular
installation. If this equipment does cause harmful interference
to radio or television reception, which can be determined by
turning the equipment off and on, the user is encouraged to try
to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from
that to which the receiver is connected. -- Consult the dealer or
an experienced radio/TV technician for help
RF Exposure warning statement: The device has been evaluated to
meet general RF exposure requirement. The device can be used in
portable exposure condition without restriction.
