**Overview**

The X Series is a medical product manufactured by ZOLL Medical, whose primary function is a combination monitor/defibrillator. The product contains an embedded communications module with an 802.11 a/b/g/n compliant radio and a Bluetooth radio. In the U.S. the 802.11 radio is restricted to operate in the 2.4, 5.2 and 5.8 GHz bands.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

**Recommendation**

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
