

FCC ID : ZKV07548827998

The image shows the back of a black remote control. A white rectangular label is centered on the back, containing FCC ID information and compliance text. Red dimension lines are drawn on the remote: a horizontal line across the top of the label area is labeled '32mm', and a vertical line on the right side of the label area is labeled '12mm'. The remote has a textured black plastic body with two large grips on the sides and a central button area. A cable is attached to the top. The device is resting on a light-colored wooden surface.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received,

including interference that may cause undesired operation.
