Declaration Letter

We declared that the firmware is installed on each single module during manufacturing process. The correct firmware is verified and installed by the module manufacturer.

In addition, the firmware binary is encrypted using open SSL encryption and the firmware updates can only be stored in non-volatile memory when the firmware is authenticated.
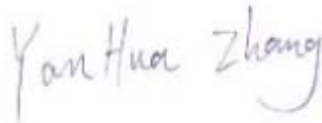

The encryption key is known by the module manufacturer only.

So the final installation of the device,(FCC ID: ZLJ-AR1021X-NV5) such that compliance of the end product is assured.

Please contact me if you have any further questions. Thanks for your attention.
Best Regards,
