SUBJECT: Application for Class II Permissive Change for FCC ID: ZMOL850GL

The product, LTE module, has been granted by FCC dated 03/10/2017 under FCC ID: ZMOL850GL. The intention of this application is to enable the modular certified FCC ID: ZMOL850GL to be integrated in HP Notebook Computer/ Model: HSN-I39C.

The module installed into host platform mentioned above is electronically and mechanically identical to the original certified module. The Original FCC testing on module under FCC ID: ZMOL850GL was performed with an antenna of higher gain, and the antenna was connected to the module in an open environment. The current host platform under application uses an antenna with lower gain and is installed inside the host platform enclosure. The physical restraints introduced by the host platform should have resulted in equal or lower level of radiated emission. Therefore, additional Radiated emission testing is not necessary.

Sincerely,

Lucy Liu
