Test setup photos of EUT

Model: LG-H635

1. Orthogonal planes of EUT

- The testing was set in the three orthogonal planes and measured for each position (X, Y, Z).

A. X- axis

B. Y-axis

Model: LG-H635

C. Z-axis

Model: LG-H635

2. Worst case of orthogonal planes each frequency band

- Test setup photos for each mode were reported as representative worst axis after radiated measurements for each position were complete.

2.1. Radiated Spurious Emission
