

11. SETUP PHOTOS

RADIATED AND POWERLINE CONDUCTED EMISSIONS MEASUREMENT SETUP	
A photograph of a white rectangular test object in an anechoic chamber. The walls are covered with black cross-shaped absorbers. A red crane arm is visible on the right side of the frame.	A photograph of the same white rectangular test object from a rear perspective. Blue markings are visible on the top surface, and a power cord is plugged into the back.
A photograph of the white rectangular test object in an anechoic chamber. The walls are covered with blue pyramidal absorbers. A red flag is attached to a piece of equipment in the foreground.	A photograph of the white rectangular test object from a rear perspective, showing blue markings and a power cord on the top surface.
A close-up photograph of a yellow rectangular surface with a white cable connected to it.	A side-view photograph of the yellow rectangular surface, showing its thickness and the connection point.
