RE: Compex module for RM-24 & AP25

I confirm that VNL product , RM-24 & ,AP25 uses the Compex Module WLM200N2-26 without hardware and configuration changes. The TX power level is reduced for meeting FCC EIRP requirements when high gain antenna used is 18 dBi typical

Sincerely,

A handwritten signature in blue ink, appearing to read 'DS Nagi', is shown within a light blue rectangular border.

DS Nagi
