4<sup>th</sup> October 2011

**Request for Modular Approval for RF Module TZ207011 (FCC Part 15.212)**

This letter is an application for FCC modular approval of the Toumaz TZ207011 RF module transceiver. The following requirements have been addressed in the submission data as specified in the FCC public notice document DA 00-1407 (June 2000):

1. The module has its own RF shielding
2. The module has buffered modulation/data inputs
3. The module has its own power supply regulation
4. The module has an antenna permanently attached to the circuit board.
5. The module has been tested in a stand alone configuration.
6. The module has been labelled with its own FCC ID number
7. All specific rules and requirements for the module have been addressed in the accompanying documentation
8. The module has been tested at TUV SUD to show compliance with all applicable RF exposure requirements.
