

Picture 9

Photo Gallery

Photo gallery  application can auto search photos and video files in SD card, and photo gallery will classify these photos and videos in folder. You can apply photo gallery to view and edit photos, set the photos as wallpaper and watch the video.

View Pictures

1. Click gallery application in main interface.
2. Enter into gallery, click the folder you want to view.
3. Click the picture you want to view; the system will play it in full screen mode automatically.
4. The pictures can be zoom in and zoom out, put two fingers on the screen, the separate the fingers (gather up the fingers, the picture will be zoom in) or double click the screen.

Note: when you browse the pictures, slide left or right to view more pictures.

File Manager

File manager will copy, cut, delete, rename the documents or the folder in the TF card, it also will share the files, install apk etc

In the main menu or desktop, click the document manager icon to enter into documents manager.

Save Storage

Strongly recommend that you purchase and install a Micro SD card, then operate POS and download multimedia files.

Tip: transmission and storage of multimedia files such as music, pictures and video to the Micro SD card, and avoid these types of files stored on the memory inside - this will save memory to allow you to download more applications.

Insert Micro SD Card

Kiosk support Micro SD card, Max. 32GB

1. Insert Micro SD card carefully from front side until locked with a click sound.
2. The Icon of Micro SD card as below Picture 10 will showing on status bar.

Picture 10

3. You can visit Micro SD card by choosing the "File Manager"  from application interface.

Uninstall and Remove Micro SD Card

You can check storage space, micro SD card available space, uninstall micro SD card and remove micro SD card as Picture 11.

Safely remove micro SD card

- 1.Click setting application.
- 2.Click memory.
- 3.Click uninstall micro SD card.
- 4.Now you can carefully press the SD card and remove it safely.

Note: Removing micro SD card safely can protect micro SD card and increase its lifetime.

Picture 11

- Micro SD card can only be inserted from front side, do not insert with strong strength.
- Please assure uninstall micro SD card before remove it.

Connect kiosk to Computer

Picture 12

Kiosk storage configuration

Before transmitting documents, you have to conduct storage configuration for your kiosk:

1. Connect the kiosk and computer by USB cable, the reminder column will show the remind information.
2. Open the reminder board; please view the kiosk status and reminder to learn how to open the board.
3. In the reminder board, click the “USB Connected”, it will as below Picture 13, then click “open USB storage configuration”.
4. Now the USB is connected successfully.

Picture 13

Copy the document into memory card

1. Connect the kiosk to computer with USB cable.
2. As kiosk storage configuration, it is connected with computer successfully.
3. Open the "My computer" in your computer, check the items in "removable disc".
4. Copy the documents you need into "removable disc".
5. After copying finishes, click "shutdown the USB storage configuration" to uninstall.

Notice: When the kiosk is connected with USB cable, and you open the USB storage configuration, you can't view the memory card through the kiosk. Only after you detach the USB cable, you can view the memory card in the kiosk.
