

## **WARNING**

Please read and follow all of the instructions & safety precautions detailed below prior to using this product. Failure to do so may result in serious personal injury and / or property damage.

### **Safety Precautions**

- Do not expose this product to heat sources (including open flame or direct sunlight)
- Do not expose this product to water or liquids. If liquid enters the product, immediately unplug the product from any connected power sources or devices.
- Do not disassemble or modify the product.
- Avoid dropping this product (or any other heavy impact which might damage the internal circuit).
- In the unlikely event of any abnormalities (such as strange odor, overheating, leaking, color change, etc.), discontinue use immediately.
- Avoid cleaning this product using liquids or chemical substances (use dry cloth only).
- Only use attachments/accessories specified by the manufacturer.
- Dispose of this item properly (do not dispose of it in trash receptacles and do not attempt to incinerate it).
- Do not leave this product unattended while it is in use or while it is being charged.
- This product is not a toy: KEEP AWAY FROM CHILDREN.
- Only re-charge this device using a USB port wall adapter (not included).
- Do not re-charge via USB port on a computer.
- When not being used for prolonged periods of time, please charge every 3 months to avoid damaging the battery.

## **KR-BT2026 User Manual**

The **KR-BT2026** is a high-quality Wireless V2.1+EDR stereo speaker. Its magnetic feature enables the user to listen to the device assembled as a sphere, or separated into two speakers (2 speaker units can be paired wirelessly together or enjoyed separately).

Please see below product specifications & instructions.

### **KR-BT2026 Specifications**

Battery Type: Grade A Non-Recycled Lithium Polymer Rechargeable Battery

Capacity: 800 mAh

Battery Duration/Lifespan: 500 times

Power Input: 5V/0.5A

Sound Output: 3W x 2 speakers

Sensitivity: >70 dB

Frequency Response: 100Hz - 20KHz

Distortion Rate: < 10%

Range of Wireless Communication: 8-10M

Charge Time (0-100%): Up to 4 hours

Playback Time: Up to 5 hours

Accessories: AUX audio cable & Micro USB charging cable

Product Size: 3.5" in diameter

Net Weight: 290g

### KR-BT2026 Product Map

### KR-BT2026 Operation

1. Separate speakers & switch BOTH units ON (BT) (a two tone prompt will notify that the speakers are successfully turned ON (BT) )
2. **KR-BT2026** speaker units will automatically pair to each other within 5 seconds

NOTE: the **KR-BT2026** default setting is stereo function (both speaker units paired to each other)

### Pairing an audio device to the KR-BT2026 (Stereo Function)

1. Once KR-BT2026 speakers units are turned ON (BT) and paired, search for the Bluetooth signal **Spector KR-BT2026** on your audio device & pair (an audio prompt will indicate successful pairing)

2. Speakers can be enjoyed magnetized together on the silicone stand, or separately on a flat surface.

#### NOTE

- Press  button to refresh if the **Spector KR-BT2026** Bluetooth signal does not appear on your audio device
- Previously paired devices will automatically re-connect to the **KR-BT2026** speaker when both devices are turned on & within range

#### Pairing ONE KR-BT2026 speaker unit to an audio device (Mono Function)

1. Turn ON ONE of the KR-BT2026 speaker units ONLY
2. Search for Bluetooth signal **Spector KR-BT2026** on your audio device & pair

NOTE: repeat step 1-2 to pair the second speaker unit with a different audio device

#### Wireless Mode (Mono or Stereo)

1. Volume control & skipping songs must be controlled directly on your audio device
2. Incoming calls must be answered directly on your audio device (**KR-BT2026** does NOT have an integrated microphone)

NOTE: incoming phone calls will disrupt music play. To resume music mode, you must press the play button from your audio device.

#### Connecting speaker (mono or stereo) by AUX mode

1. Plug in 3.5mm AUX audio cable into each **KR-BT2026** speaker unit & into your audio device
2. Volume control & Skipping songs must be controlled directly on your audio device
3. Incoming calls must be answered directly on your audio device (**KR-BT2026** does NOT have an integrated microphone)

#### To Re-charge the KR-BT2026

1. Insert AUX cables into each **KR-BT2026** speaker unit & connect the USB output to a wall adapter (not included)
2. Charge time is approximately 4 hours from 0-100%

NOTE: recharging will automatically stop once the battery is full

**FCC STATEMENT :**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

**RF warning statement:**

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
