5. The company reserves the final explanation right to this manual and other relevant information

Preface

This device has built-in high performance Wi-Fi receiver module, supporting external 3G USB DONGLE wireless network card, turning on the broadband wireless networks, breaking through the restraint of network cable; it will bring the portable media player world and fulfill the entertainment needs. It also support picture browsing, E-book Reader, games, online chat, and various other functions and settings that will fully show individuality.

Safety notices

To avoid accidents please adhere to the manuals instructions.
● Do not let the tablet fall, rub,or be compressed with hard objects,
  or it may cause surface damage of the tablet, loose battery, data loss or
  damages of other hardware
● Never let this product become exposed to humid environment or
  rain as the water that leaks in may disable it to the extent beyond
  maintenance.
● Do not use the headset with high volume continuously. Please adjust the
  volume to an appropriate and secure volume and control the usage time
  to avoid any damage to hearing, as excessive volume will cause
  permanent hearing damage.
● Do not cut off the power abruptly during software update or download.
   It may cause data loss and/or system error.
● Do not turn on the device where wireless equipment is forbidden or
  when usage of the device will cause interference or danger. Observe
   any relevant restrictions.
● Do not use incompatible products. Only use original accessories and
   battery.
● Do not use the device at gas station or nearby fuels or chemicals.
● Do not use product while driving or operating heavy machinery.
● Do not clean the device with any chemicals or detergent, it will
  damage the product surface and corrode the paint.

This equipment has been tested and found to comply with the limits for a
Class B digital device, pursuant to Part 15 of the FCC Rules. These limits
are designed to provide reasonable protection against harmful interference
in a residential installation. This equipment generates uses and can radiate
radio frequency energy and, if not installed and used in accordance with the
instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular
installation. If this equipment does cause harmful interference to radio or
 television reception, which can be determined by turning the equipment off
and on, the user is encouraged to try to correct the interference by one or
more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which
   the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for
compliance could void the user's authority to operate the equipment.
