## Multimedia Bluetooth Keyboard

### Insert Batteries
Before using your Bluetooth Keyboard, you must insert 2 AA batteries. Batteries are not included.

INSERT 2 AA BATTERIES

### Connect your Bluetooth Keyboard
In order to use your Bluetooth Keyboard, you must first connect it to the device you intend to use it with. This is called "pairing". After you have paired your keyboard, it will automatically connect to your device when the keyboard is powered on and within its 30 feet operating range.

Below are instructions to pair your keyboard with a computer with built-in Bluetooth. If you are using this keyboard with a Bluetooth adapter, please refer to your adapter's documentation.

### Pair with Windows
1. Click the Bluetooth icon located in your system tray and select Add New Device. You can also find the Bluetooth icon in your system's Control Panel.

   4:08 PM

2. The Add a Device window will appear. Press the Connect Button on the bottom of your Bluetooth Keyboard. Your new keyboard will be detected and appear in the window.

   CONNECT BUTTON

3. Select your newly detected keyboard and click Next to continue. Windows will connect and configure your Bluetooth Keyboard.

4. Select Create a pairing code for me and click Next.

5. The wizard will generate a random set of numbers. Enter these numbers into your Bluetooth Keyboard and press Enter on the keyboard to continue.

   96808356

6. Your computer can take several minutes to configure your new device. After pairing is successful, your new Bluetooth Keyboard be listed under Bluetooth Devices.

7. Congratulations, you are now ready to use your Bluetooth Keyboard.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
