Subject: Class 2 Permissive Change

FCC ID: ZZY-9602

TO WHOM IT MAY CONCERN

In accordance with § 2.1043 *Changes in certificated equipment*, we hereby request a Class 2 Permissive Change to FCC ID: ZZY-9602 as detailed below:

To permit usage in specific portable host equipment model: **RockSTAR** which is a handheld satellite transceiver. Additionally, as the RockSTAR also includes Microchip Technology Inc. Bluetooth module (FCC ID: T9J-RN42) to allow colocation and simultaneous operation with said Bluetooth module.

Routine Evaluation under requirements of § 2.1093 *Radiofrequency radiation exposure evaluation: portable devices*; has been performed according to OET Bulletin 65 and KDB 447498 and, as the **RockSTAR** can be both handheld and body-worn, evaluation testing was performed in the body-worn configuration at a separation distance of 0 mm as this is the most conservative condition. Assessment also includes the satellite transceiver and the Bluetooth module above for simultaneous transmission conditions

Yours sincerely
